2. Come now, let's build a mission
Close to Monterey Bay.
Bring new converts to Jesus
To worship God and to pray.

3. So the Mission was founded,
Converts came before long
Eager to learn from the padres.
Soon they were five hundred strong.

4. But one day a big earthquake
Shook the ground to its core.
Tidal waves brought the church down
The Mission stood there no more.

5. Today there is a church now
On the site where once stood
Mission Santa Cruz padres
Teaching the word of the Lord.
